Available immediately | Qiyas Student ID: qiyas-2026-005295

PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on full-stack development experience and specialized AI & Data Engineering training through Qiyas-Addis Ababa University. Strong foundation in Python, JavaScript, data analysis, machine learning, deep learning, NLP, computer vision, and predictive modeling. Built practical projects spanning time-series forecasting, NLP classification, neural machine translation, medical-image classification, and computer-vision attendance. Seeking an entry-level AI/ML or data-focused engineering opportunity.

TECHNICAL SKILLS

- **Programming & Data:** Python, JavaScript, Pandas, NumPy, SQL, data preprocessing, statistics, visualization
- **Machine Learning:** Scikit-learn, XGBoost, LightGBM, supervised learning, ensemble methods, feature engineering, model evaluation
- **Deep Learning & CV:** TensorFlow, PyTorch, CNNs, OpenCV, face recognition, GPU-based experimentation
- **NLP & GenAI:** TF-IDF, text classification, tokenization, Seq2Seq, attention, Transformers, Hugging Face concepts
- **Data & Backend:** PostgreSQL, FastAPI, MongoDB, MySQL, Firebase, Node.js, Express.js, REST APIs
- **Engineering:** Git, GitHub, Postman, Streamlit, Flutter, React, Docker/FastAPI/MLflow/Airflow familiarity

EDUCATION

BSc in Software Engineering | Arba Minch University **2021 - 2025**
CGPA 3.71/4.00 Passed the National Exit Exam

AI & DATA ENGINEERING TRAINING

Qiyas-Addis Ababa University - AI & Data Engineering Training **16 May 2026 - 21 September 2026**
Python, Data Preprocessing & Analysis, Statistics, Machine Learning, Model Evaluation, Deep Learning, NLP, Computer Vision, Predictive Modeling, RAG, LLM, AI Agent, Git/GitHub

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern | Dan Energy, Ethiopia **April 2024 - July 2024**

- Developed SkillUp, an e-learning platform using the MERN stack.
- Built responsive dashboards for students, instructors, and administrators.
- Integrated Firebase authentication and a discussion forum to support collaboration.

SELECTED AI / ML PROJECTS

• **AI-Powered Visual Attendance System** | ***Computer Vision / AI Engineering***
Developing a live-camera attendance system using Python and face-recognition technologies, with employee identification, attendance recording, and production-oriented architecture.

• **Neural Machine Translation** | ***Deep Learning / NLP***
Developing a neural sequence-to-sequence translation project covering tokenization, sequence modeling, attention and Transformer concepts, training, validation, and GPU-based experimentation.

• **Restaurant Sales Forecasting** | ***Time-Series / Machine Learning***
Built a forecasting pipeline from historical sales using lag features, rolling statistics, Random Forest and other ML approaches, with horizon-specific evaluation.

• **Email Spam Classification** | ***NLP / Machine Learning***
Built a TF-IDF + Perceptron spam classifier achieving approximately 97.7% accuracy and 97.5% F1-score on the evaluated dataset.

• **Heart Disease Prediction** | ***Ensemble Machine Learning***
Developed ensemble models and evaluated performance using accuracy, F1-score, and ROC-AUC.

• **Brain Tumor MRI Classification** | ***Deep Learning / Computer Vision***
Developed a CNN-based image classification project for brain MRI tumor categories.

PRODUCTION-ORIENTED AI / ML & DATA STACK

Familiarity / Learning: Docker, FastAPI, MLflow, Apache Airflow, PostgreSQL, Hugging Face Transformers, AWS/Cloud concepts, CI/CD concepts

SOFTWARE ENGINEERING FOUNDATION

React • Node.js • Express.js • JavaScript • Flutter • MongoDB • Firebase • MySQL • PostgreSQL • FastAPI • REST APIs • Postman • Git/GitHub

CERTIFICATION

AI & Data Engineering Training - Qiyas / Addis Ababa University / Ethiopian Ministry of Labour and Skills | 2026

LANGUAGES

English (Fluent) • Amharic (Native) • Afaan Oromo (Native)
